

## COUNCIL POLICY

<b>TITLE:</b>	<b>SMOKE-FREE PUBLIC PLACES</b>
<b>MEETING:</b>	Council
<b>EFFECTIVE DATE:</b>	1 June 2020
<b>FILE REFERENCE:</b>	110800
<b>REVIEW:</b>	April 2025

---

### **1. BACKGROUND**

The Kawerau District Council (Council) first adopted a smoke-free public places policy in 2011. Since then it has reviewed the policy six times, adding further smoke-free places, including a goal of Kawerau being smoke-free by 2025 and setting standards for smoke-free signage.

### **2. INTRODUCTION**

This policy encourages adults to be positive role models for children and young people by not smoking in outdoor public places and events. It is an educational policy and its effectiveness relies on community support. Evaluations of educational smokefree policies have shown such policies to be effective. The key is to ensure good signage and good communication of the policy. Signage is displayed in the places subject to the policy to remind people who smoke that not smoking in these places is considerate, healthy and the 'right' thing to do. It also empowers non-smokers to assert that they don't want to be exposed to second hand smoke. Therefore, the policy is enforced from within the community rather than by Council.

### **3. POLICY OBJECTIVES**

The objectives of this policy are to:

1. Positively communicate and promote the message of being smoke-free and the goal of 'Smoke-free Aotearoa 2025' and 'Smoke-free Kawerau 2025'
2. Encourage people who smoke to refrain from smoking in outdoor public places and events.
3. Enable people who do not smoke to avoid exposure to second-hand smoke in outdoor public places and events.
4. De-normalise smoking in outdoor public places and at events, so as to influence children and young people.

#### 4. POLICY PRINCIPLES

- Council has a responsibility to take reasonable steps to prevent nuisance and harm to people in areas it owns or controls.
- Council has a leadership role in relation to smoke-free messaging in the District.
- People have the right to breathe smoke-free air in outdoor public places and at events.
- Adults in a community should be encouraged to provide positive influences for children and young people.
- A smoke-free environment is particularly appropriate for recreation reserves, which are created to provide areas for recreation, sport and the physical welfare and enjoyment of the public.

#### 5. DEFINITIONS

**Public places** means all those outdoor public places owned or controlled by Kawerau District Council.

**Events** means all events that are held at public places or involve a level of Council support, as outlined in the Second Schedule to this policy.

**Recreation reserves** means reserves designated under section 17 of the Reserves Act 1977 for purposes including providing areas for recreation and sporting activities, for physical welfare and enjoyment of the public.

#### 6. POLICY STATEMENT

This policy applies to all the public places in the First Schedule and the events in the Second Schedule of this policy.

Council will install and maintain bright and durable smoke-free signage in the public places subject to the policy.

Smoke-free branding and other collateral will be used at the events to which this policy applies.

All smoke-free messaging is positive and focused on being smoke-free and the goal of 'Smoke-free Aotearoa 2025' and 'Smoke-free Kawerau 2025'.

This policy is not enforced by Council, but compliance is achieved by co-operation from within the community.

Council will also show leadership in relation to the smoke-free message in its role as an employer.

#### 7. RELEVANT DELEGATIONS

The Chief Executive Officer or his/her nominee has delegated authority for the implementation of this policy.

## **8. REFERENCES AND RELEVANT LEGISLATION**

- The Smoke Free Environments Act 1990 and its amendments
- Kawerau District Council Reserves Management Plan

## **9. REVIEW**

Council will review this policy no later than April 2025.

However, if Council receives advice from the Ministry of Health and/or Toi Te Ora Public Health to include vaping in the policy, it may conduct a full or partial review before that time.
