| Raewyn Luckens        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Kawerau Seniors Forum | <p>A. What is Council doing to improve public transport?</p> <p>B. Request mobility scooter parking areas in the town centre, preferably under cover.</p>                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Kawerau SPCA          | <p>A. Can Council make stricter rules for the number of dogs allowed to be kept.</p> <p>B. Only one mistake should disqualify dog ownership, not three.</p> <p>C. The annual dog survey should be done by people from outside the district.</p> <p>D. Dog control officers should be allowed to go onto private property to conduct duties.</p> <p>E. Can SPCA and Council work together to reduce offending for neglect.</p> <p>F. Can Council help the SPCA get into schools?</p> | <p>A.</p> <p>B. The current number for disqualification is prescribed by legislation.</p> <p>C.</p> <p>D. Dog control officers are authorised and regularly do go onto private property to conduct authorised duties. They also assist the SPCA with welfare-related issues on request when the presence of a warranted officer is required.</p> <p>F. Staff are happy to work with the SPCA to get into schools, however they also have difficulties gaining access</p> |
| Sport Bay of Plenty   | <p>A. Sport BOP greatly values the strategic partnership with KDC</p> <p>B. Sport BOP thanks Council for its commitment to providing fit for purpose sport and recreation facilities for the community</p>                                                                                                                                                                                                                                                                          | Thank you.                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| Submitter                | Additional submission points                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Proposed response                                                                                                                        |

| Konrad and Jannie Dubbledam        | 1.(3) Would also like more respite care for the under 65s.<br>A.Footpaths: The town is not wheelchair friendly enough overall.                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                          |
| Environmental Protection Authority | Reminds Council that:<br>A..It is responsible for hazardous substance compliance in every public and private location inside its boundary in situations not controlled by other agencies.<br>B.Improvements relating to hazardous substances could be integrated with other outcomes Council is working toward.                                             | Council is aware of its responsibilities under the HSNO legislation and will seek to integrate improvements relating to hazardous substances with other outcomes it is working toward.                                                                                                                                                                                                   |
| Judy Gebert                        | 1.(3) Could the Bowen Street development include some retirement units? .<br>2.Can the River Trail be for recreational cycling and not just mountain biking.<br>2.Would Council provide more shared trails                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                          |
| M and C Godfery                    | 1.(4) Please ensure we keep some reserves.<br>1.(5) In-fill housing should be near the CBD.<br>The Swimming Pool developments are excellent.<br>Dog control is still a problem.                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                          |
| Tim Harrison                       | Asks that Council<br>a. Start charging for the pools<br>b. Remove inappropriate street trees                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                          |
| Heritage New Zealand               | Asks that:<br>A. Council allocates funding toward an archaeological assessment for each of the developments and the archaeological authority process should this be required.<br>B. The feasibility study explores heritage elements of the location, the benefits of interpretative heritage signage and the likely need for an archaeological assessment. | A. Archaeological sites and natural, cultural and heritage features in Kawerau are identified in the District Plan. An additional assessment is therefore not considered appropriate.<br>B. These requests will form part of the normal consenting processes as development is approved and takes place. Interpretative signage will be considered as part of the development programme. |
| Pauline Horton                     | 1(1) Suggests Council gift the units to Mountain View so that residents can apply for rates rebates and the Trust Board is responsible for ongoing costs.<br>2.Needs to be advertised and properly signposted<br>3.The Promenade has bad lighting and is not welcoming at night                                                                             | 1.(1)Residents will be eligible for rates rebates. Costs will be recovered by an annual lease.                                                                                                                                                                                                                                                                                           |
| Dennis Jackson                     | 2.Would like better upkeep of Monika Lanham Reserve for mountain bikers<br>3.The Promenade needs demolishing and redevelopment, maybe as a carpark.                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                          |

| Submitter                   | Additional submission points                                                                                                                                                                                                                                                                                                                                                          | Proposed response                                                                                        |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------|
| Bill Johnston               | <p>1(1) Development must be by private developers.<br/> 1(3) Sell the land to a private developer<br/> 3. Buy and demolish all the shops and build a decent mall.<br/> 4. Build a crematorium.<br/> 5. The \$500,000 earmarked for town centre upgrade should be used to reduce rates.</p>                                                                                            | <p>5. Any town Centre upgrade will be funded from depreciation reserves and not directly from rates.</p> |
| Steve Kelly                 | <p>1. Would like Council to fix/rebuild and/or sell the abandoned houses.<br/> 2.a. Would like a café and tourist shop on River Road to promote the cycle/walkway.<br/> 2.b Also an English language school.<br/> 2.c. Thinks we need to build attractions different to other centres.<br/> 4. Would also like a crematorium<br/> 4. Would the end of Hardie Avenue be an option?</p> |                                                                                                          |
| Russell and Margaret Kenny  |                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                          |
| Marlene Kranz               | <p>1. Suggests some one bed roomed accommodation is built.</p>                                                                                                                                                                                                                                                                                                                        |                                                                                                          |
| Frances Kuijpers            | <p>2. Would like to see fortnightly bus tours of Kawarau<br/> 3.a. Bring back a bank into the Town Centre.<br/> 3.b. No road through Jellicoe Court please<br/> A. Roading: Would like a Bus Service from Kawarau to Whakatane for half day return trips twice a week.</p>                                                                                                            |                                                                                                          |
| Jenny Laird                 | <p>1(4) Don't retire too many reserves.<br/> 2. Would like to see a mini golf area. This could be used by people of all ages.<br/> A. Parks and Reserves: All dog exercise areas need doggy doo disposal bins. These must be maintained and kept clean.<br/> B. Solid Waste<br/> Would like green waste bins collected every week as they get very full and heavy.</p>                |                                                                                                          |
| Richard and Lorraine Martin | <p>1(4) Do not use Boyce Park or the Waterhouse Street Reserve<br/> 2. The i-site does an excellent job but some activities need to be advertised nationwide<br/> 3.a. Don't put a road through Jellicoe Court.</p>                                                                                                                                                                   |                                                                                                          |
| Ken McGregor                | <p>1(4) Please consult with the community before retiring any reserves<br/> 2. We need a bit more advertising for tourism</p>                                                                                                                                                                                                                                                         |                                                                                                          |

| Submitter                                 | Additional submission points                                                                                                                                                                                                                                                                                                                      | Proposed response |
|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| S McLellan                                | 1(4) Could the Fenton Street reserve be used for housing?<br>A. Swimming Pools: Would Council consider charging out of town users?                                                                                                                                                                                                                |                   |
| Elaine McGlinchey                         | 2. Would like to make Rautahi a 'marae experience'<br>3. The Promenade needs a total revamp/demolition                                                                                                                                                                                                                                            |                   |
| Leo and Maureen Meharry                   | 1(3) Council should sell the land only.<br>1(5) In fill housing should be a replacement for run down houses only.<br>2. Council must own the beginning and end of the river trail.<br>A. Water Supply: Faulty water pipes must be repaired now.                                                                                                   |                   |
| Diane Menso                               | 1(3) Some retirement units should be made available for rent.<br>3 The Promenade should be a focus. Get shops up and running or demolished.<br>A. The community needs socialising facilities for our brains and our welfare. For young and old.                                                                                                   |                   |
| Alan Morton                               | 3. Improve lighting and surveillance so that roller doors are unnecessary<br>A. Roading: Please slow down traffic on Onslow St, River Rd and other main roads.<br>B. Also need to police the trail bikes being ridden along footpaths and road berms.<br>C. Swimming Pools: The parking area in front of the pools needs some beautification.     |                   |
| NZ Motor Caravan Association              | Recommends the LTP includes recognition, resourcing and prioritisation to support the growth of motor caravanning with a focus on<br>a. New infrastructure development e.g. public dump stations and refuse bins<br>b. An integrated and permissive freedom camping management regime, and<br>c. Recognition of NZMCA's Motorhome Friendly Scheme |                   |
| Nikki Parsons, First National Real Estate | Recommends Council purchase the flats opposite the shops on Onslow St and renovate them for sale to older persons.                                                                                                                                                                                                                                |                   |
| Margaret Paul                             | 1. Work around existing trees in residential development.<br>1(4) Retire reserves as long as our trees remain.                                                                                                                                                                                                                                    |                   |
| Les Ralph                                 | 1(4) Just develop one reserve at a time please.<br>2.a. Please ensure the river trail can be used all year round.<br>2.b. Would also like a camping ground and decent cafes and restaurant.                                                                                                                                                       |                   |

| Submitter          | Additional submission points                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Proposed response |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| Melissa Ratana     | 1(1) and (2) Ensure the sections and retirement units are affordable.<br>1(4) Would like a tiny house community on former reserve land.                                                                                                                                                                                                                                                                                                                                                             |                   |
| Corinne Reid       | 1(5) Sections need to be a minimum of 600 m <sup>2</sup><br>4. Would prefer the reserves to be left intact.                                                                                                                                                                                                                                                                                                                                                                                         |                   |
| W Reynolds         | 1. Kawerau needs more rental housing<br>3. The Promenade is an eyesore. Time absentee landlords front up or Council gets more proactive.<br>Social Wellbeing<br>Kawerau needs a diversity of ages not lots of older people                                                                                                                                                                                                                                                                          |                   |
| Janessa Richmond   | A. Economic Development<br>Would like Council to ensure new jobs go to local people and to employ local firms for Council contracts.                                                                                                                                                                                                                                                                                                                                                                |                   |
| Pam Rowe           | 1(4) The Hardie Rd end of Hilldale Reserve would require drainage work.                                                                                                                                                                                                                                                                                                                                                                                                                             |                   |
| John Rosanowski    | 1(4) We don't want to lose Stoneham Walk or our river walk.<br>3. Need to demolish the Promenade and start again. Maybe continue Jellicoe grass area around to the Promenade.<br>A. Could Council support temporary accommodation for people moving here for work on the new industries.<br>B. Proposes Council issues 3 vouchers per property per annum for free use of the waste transfer station. One voucher would be for a normal sized trailer and large trailers would require two.          |                   |
| Greg Rzesniowiecki | Recommends that Council:<br>A. Formally supports the 23 principles offered by Alfred de Zayas in his paper to the UN Human Rights Committee.<br>B. Endorse the model trade and investment treaty process offered in the <a href="http://www.dontdoit.nz">www.dontdoit.nz</a> petition<br>C. Support the Local Government (Four Wellbeings) Amendment Bill.<br>D. Read and consider Kate Raworth's 'Doughnut Economics' as a framework for thinking about economics in the 21 <sup>st</sup> Century. |                   |
| Maurice Scoble     | 2. We need some attractive accommodation and more events to start and finish in Kawerau.                                                                                                                                                                                                                                                                                                                                                                                                            |                   |

| Submitter                         | Additional submission points                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Proposed response |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| Helen Sisley                      | <p>2. Only supports a river trail if it is kept well maintained.</p> <p>3. Keep every ratepayer in the loop.</p> <p>A. Parks and Reserves/Water Supply: Please clean up our waterways. Minimise the use of sprays and every other chemical.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                   |
| Charlene Smithlin and Barry Green | <p>1(4) If the parks cannot be looked after properly then turn them into housing. For example Hildale Reserve is not looked after and is an eyesore.</p> <p>3.The shops need to be pulled down then a few new ones built.</p> <p>A. Parks and Reserves: We need lighting in parks near homes.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                             |                   |
| R Swenson                         | <p>1(3) Allow a few units for people with illnesses or disabilities</p> <p>1(5) Must have plenty of space for the house and a driveway between sections</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                   |
| Rangimarie Tarei                  | <p>1. The housing must be affordable.</p> <p>1(4) Prideaux Park, Firmin Field and Tarawera Park must be retained. Maybe Boyce Park could be used for housing.</p> <p>3. a. Maybe cover in the central mall area.</p> <p>3.b.Would like to see a Wall of Remembrance.</p> <p>3.c.Would like outdoor public meetings with presentations on big screen.</p>                                                                                                                                                                                                                                                                                                                                                                                      |                   |
| Hani Tatu                         | <p>2.We need development focused on natural resources and reserves and training and mentoring programmes for operators.</p> <p>A. Economic Development: Proposes training and employment programmes for local people to grow our local workforce.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                   |
| Tourism Industry Aotearoa         | <p>Would like to see Council include eight industry priorities from local government:</p> <ol style="list-style-type: none"> <li>1. Look after and invest in the quality of your region as a destination</li> <li>2. Plan for tourism infrastructure and reduce the compliance burden for tourism operators</li> <li>3. Programme events in off peak times and attract high value business visitors with quality facilities</li> <li>4. Measure visitor satisfaction</li> <li>5. Attract visitors throughout the year</li> <li>6. Include tourism in regional development</li> <li>7. Enable airport and port facility development</li> <li>8. Identify the regional priorities required to develop a sustainable tourism industry</li> </ol> |                   |

| Submitter                | Additional submission points                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Proposed response                                                                   |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| Stephanie Tuhoro         | <p>1(1) and (4) Suggests Council use developers to minimise the cost to ratepayers.</p> <p>2. Will the waterwheel museum be built.</p> <p>3. Empty shops need to be upgraded and owners made by Council to repair them. Not sure about a road in Jellicoe Court.</p>                                                                                                                                                                                                                                                                                                                                 |                                                                                     |
| Peter and Maureen Wilson | <p>1(4) Only use reserve land if there is a need.</p> <p>1. Please do not allow garages to be used as homes. This does not keep Kawerau beautiful.</p> <p>2. Do not support a road through Jellicoe Court</p> <p>A. Parks and Reserves: Please remove and poison the gums and acacias on the River Road side of Monika Lanham Reserve but leave the manuka and kanuka standing..</p>                                                                                                                                                                                                                 |                                                                                     |
| Tracy Wilson             | <p>1(3) Please build energy efficient retirement units.</p> <p>2. Concerned that trail maintenance would be unaffordable. Existing walkways are adequate.</p> <p>4. Suggests that Council considers provision of a natural burial section at the existing cemetery or a separate site.</p> <p>Parks and Reserves.</p> <p>A. Notes with sadness how many trees have been removed and not replaced, with plant pests growing in their place.</p> <p>B. Asks Council to consider its widespread use of the herbicide Glyphosate in public areas (vis WHO finding that it is probably carcinogenic).</p> | <p>B. Glyphosate is used in accordance with recommended practices.</p>              |
| Anonymous 1              | <p>2. Can rubbish bins be put where the motorhomes park at Firmin Field.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | <p>2. Rubbish bins are put out on Firmin Field only when events are held there.</p> |
